Dr. Robert Grover, DO, FACOG

Obstetrics & Gynecology and Urogynecology
General Leonard Wood Army Community Hospital

What do you like most about your job?

Dr. Grover: "I love obstetrics and the maternal/fetal diad. Just amazing. I really came to appreciate female pelvic surgery and the treatment for incontinence which can be very devastating to women and affect their quality of life. I truly enjoy taking care of my patients—I just really enjoy being able to help people."

Where did you grow up?

Dr. Grover: "I grew up in Strong, Maine, a town of 900 people. I'm a "Maine-iac."

Why did you choose to come to Fort Leonard Wood?

Dr. Grover: "The command is interested in building a Women's Pelvic Health Program and that's one of the big reasons I'm here. It involves diagnosis and both surgical and nonsurgical treatment of fecal and urinary incontinence. Repairing prolapse as a result of child birth or injuries—this is a brand new service line here—and not only just here at GLWACH, but in all of south-central Missouri—and it will be available to our VA patients as well. Another reason I got out of private practice to come here was because the happiest I've ever been practicing medicine was when I was in the Army. It's good to be back and part of the Army team."

How do you spend your time when you're not working?

Dr. Grover: "I've got a lovely wife and four-and-a-half grandkids—ages eight, six, four, two, one who will be here in June, and two daughters. I'm also a Harley guy—I had a Fat Bob and I'm going to a Bagger. My Havanese dog named Harley rides with me in a front pack. I also want to learn to play the bass guitar."
